

GEP Environmental Ltd - Environment and Quality Policy

GEP Environmental Ltd is an environmental, energy and training consultancy providing services to a diverse range of clients across the public and private sectors in the UK. Through the provision of consultancy and training, GEP Environmental Ltd works in partnership with its clients to identify and implement practical and cost-efficient ways to improve resource consumption as well as reduce carbon emissions and other waste.

GEP Environmental Ltd is committed to the protection of the environment, prevention of pollution and to continually improving our environmental performance. Additionally, as an environmental, energy and training consultancy we have a significant opportunity to support our customers and their supply chains to improve their overall environmental performance through the provision of high quality environmentally focussed services. As such, we are committed to continually improving the quality of our services so we that we can always meet, or where possible, exceed our clients' requirements and expectations.

GEP Environmental Ltd ensures that all activities are carried out in compliance with the relevant compliance obligations and meets, or where possible, exceeds the requirements of ISO 14001:2015 and ISO 9001:2015. To this effect, we have implemented an integrated Environmental and Quality Management System.

The following key activities have been identified as significant for our Environmental and Quality Management System:

- **Energy** – We are committed to minimising energy consumption and identifying opportunities to implement energy efficiency measures and support the implementation of renewable technology.
- **Waste** – We work to minimise the waste we generate by seeking opportunities to prevent, reduce, reuse, recycle and recover otherwise redundant resources.
- **Transport** – We coordinate the delivery of our services to minimise the need for travel wherever possible. Where required we optimise travel planning and use the most sustainable transport options available.
- **Quality** – We have implemented quality controls to ensure that our consultancy and training services meet, or where possible, exceed our clients requirements and expectations.
- **Training** – We are committed to the ongoing training and education of our staff so that we can continue to provide the most appropriate consultancy and training services.
- **Procurement** – We aim to ensure that the products, services and materials that we purchase are as sustainable as practical, whilst meeting our operational requirements.

GEP Environmental Ltd has introduced documented systems that will set, achieve and review measurable quality and environmental objectives. The Directors will provide appropriate resources as required in order to enable the company to meet these objectives. All staff are made aware of the aims and objectives of the Quality and Environmental Management System and associated operating procedures and are expected to adhere to their requirements. Everyone is encouraged to suggest ways in which the Quality and Environmental Management System can be improved.

Where appropriate, sub-contractors and visitors to our premises are required to acknowledge and adhere to the company's Environment and Quality Policy and relevant operating procedures.

GEP Environmental Ltd communicates its Environmental and Quality Policy to all staff through notice boards, staff induction and through the company intranet. This Policy is available to all stakeholders through the GEP Environmental Ltd website www.gepenv.co.uk
